

Camping Box Check List

Directions:

1. Take everything out of the box.
2. Wash and dry all items that were in the box.
3. Get the checklist and a pencil.
4. Before putting items back into the box, mark with an "x" the items you are putting back in.
5. Circle missing items from the box so that the Quarter Master (QM) can replace the missing items.
6. Write your name, patrol name, and date at the bottom of the form saying you cleaned & reviewed the box.
7. Put the form back in the box so the Quarter Master can review.
8. Bring back the clean box to the next meeting.

Thank you for doing this! This will save time during troop meetings because we will know that when boxes are returned, everything is clean and missing items have been reported to the QM
